## **CATEGORY DEFINITIONS**

### **Nature**

This category includes geographical features as well as all fauna and flora, be it of a marine or terrestrial nature, in their natural state, such that a well informed person could testify to its true representation. Macro studies of said subjects would classify under this category. This category will also include true nature landscapes which may show no human interest. Pictorial aesthetics should be subordinate to action and story-telling contents. Specifically excluded will be cultivated plants, domestic animals, still life studies, mounted specimens, museum exhibits etc. Any form of manipulation that alters the truth will not be allowed.

### **Pictorial**

Pictorial entries are for General Photography, and there is no restriction on subject matter. Entries for any other section should be entered in that specialist section and not under Pictorial where they will be disqualified (i.e. Nature Open and Sport).

### **Sport**

Pictures may depict any organised, competitive or recreational sport. Preference will be given to pictures that depict human achievements. Any form of manipulation that alters the truth will not be allowed.
