

Andre Norris CV

I joined the Centurion Camera Club (CCC) in 2010, shortly after I decided to make photography a serious hobby and have been an active member since. Prior to this I was an enthusiastic "happy snapper". I practice my hand at all genres of photography but I am especially interested in Street & Travel as well as Landscape Photography. I seldom plan a holiday or business trip without considering photographic opportunities.

Since joining CCC I have been elected to the management committee since 2011 and have served as chairperson for 2 years. I completed the PSSA JAP course and I often judge at club events (home & away) and I am frequently invited to act as a judge at national salon events, digital and prints. I personally also like to enter these events and have won two international medals for some of my work. I particularly like to interact with members of the photographic community in order to share the little bit I know, but mostly to learn from others.

I have been in business for the last 26 years, and counting, and have held several management positions. I have been able to apply a lot of my experience in management in the photographic community.

I have the best interest of PSSA and its members at heart and should I be elected as a director I would be committed to serve with integrity and make myself available to serve on any of the divisions or committees of PSSA.
