PROJECTED DIGITAL IMAGE CATEGORIES:

Category A: Nature - Colour (including birds)

Category B: Portraits – Colour

Category C: Photojournalism and Sport – Colour

Category D: Travel and Street Photography – Monochrome

Category E: Open Colour

Category F: Open Monochrome

JUDGING:

Presented images will be adjudicated “Live” via an adapted format of “Remote Judging”. Various categories have been allocated to regional clubs who will judge the allocated category live at their club. The judges will receive screen calibration instructions, as well as the official PSSA test calibration application to ensure uniformity in the presentation of images. Three judges from each nominated club will judge each photo. The sum of the 3 scores will represent the final score. Where 2 or more adjudicators are of the opinion that an image does not conform to the definition of the entered category, the image will be rejected. In the case where 1 adjudicator is of the opinion that an image does not conform to the definition of a specific category, the average point of the remaining 2 adjudicators will represent his/her final score. Where there is indecision regarding disqualification the judges will take a decision after discussion. Any image that the Salon Director considers pornographic or offensive to the public may, on consultation with the judges, be disqualified.

DEFINITIONS:

MONOCHROME:

Monochrome is a black and white image. A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey.

A black and white work toned entirely in a single colour e.g. sepia, will remain a monochrome work able to stand in the black and white category.

A black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category.

MANIPULATION:

Manipulation shall constitute any or all of the following modifications to the original image:

- Adding an element to the image that was not contained in the original capture;
- Removing an element from the image that was contained in the original capture;
- Moving or repositioning an element of the image that was contained in the original capture.

In the categories Nature, Photojournalism and Street Photography, manipulation is not allowed. In Open there is no restriction whatsoever in the way authors choose to post process an image.

The following actions are allowed and are not seen as manipulation:

- Cropping
- Correction of lens distortion, chromatic aberrations, purple fringing, lens vignette and vertical/horizontal perspective adjustments;

- Removal of dust spots or scratch marks from sensor or scanned images;
- The blending of different exposures of the same scene to broaden the dynamic range e.g. High Dynamic Range (HDR);
- Photo stacking to overcome the limitations of the digital sensor heat artefacts in long exposures.
- Focus stacking to widen the depth of field especially in Macro photography.

HDR and focus stacking will not be considered as manipulation in Nature and Wildlife and may be used provided that the end result is a faithful representation of the original scene. However, HDR and Focus stacking are not allowed in Photojournalism

Category A: Nature (including Birds) – Colour Only – Manipulation is not allowed

Entrants warrant that they adhere to the PSSA Nature Photographer's code of ethics and that "The welfare of the subject is more important than the photograph."

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archaeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.

The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces like hurricanes or tidal waves.

Scientific bands, scientific tags or radio collars on wild animals are permissible.

Photographs of artificially created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted. Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning. All allowed adjustments must appear natural. Stitched images are not permitted. Infrared images, either direct-captures or derivations, are not allowed.

Images used in Nature Photography competitions may be divided in two classes: Nature and Wildlife. Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena and extant organisms as the primary subject matter. This includes images taken with the subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

*Monochrome images **will not** be allowed in this category*

*Digital manipulation **is not** allowed in this category*

Category B: Portraits – Colour Only – Manipulation is allowed

In this category, the subject matter is restricted to portraits, either human or animal.

A likeness, personality, and mood of a human/person/animal where that subject is dominant in the image. Portraiture is not restricted to head and shoulders and may include just a part of the face, a back view or even a full-length study.

*Monochrome images **will not** be allowed in this category*

*Digital manipulation **is** allowed in this category.*

Category C: Photojournalism and Sport - Colour only - Manipulation is not allowed

Photojournalism entries are images with informative content and emotional impact which usually include human interest, documentary, news or sport. The journalistic value of the image shall receive priority over the pictorial quality.

In the interest of credibility, PJ images that misrepresent the truth and model or staged set-ups are not permitted.

Sports photography covers any aspect of a sporting event. Images must depict an active pastime or recreation involving physical exertion and/or skill that is governed by a set of rules or customs and often of a competitive nature. The level of sport can range from children playing a sport to the Olympic Games. Images in this section could include the spectators or judge or umpire in a sporting event

Techniques that add to, relocate, replace or remove any elements of the original image, except by cropping, are not permitted. Techniques that enhance the presentation of the image, without changing the photojournalism story content, are permitted. All enhancements must appear natural.

Monochrome images will not be allowed in this category

Digital manipulation is not allowed in this category

Category D: Travel and Street Photography – Monochrome only - Manipulation is not allowed

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographic limitations.

Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not appropriate.

Close up pictures of people or objects must include features that provide information about the environment.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All allowed adjustments must appear natural.

Colour images will not be allowed in this category

Digital manipulation is not allowed in this category (see "Manipulation" below)

Category E: Open - Colour only – Manipulation is allowed

In this category the subject matter is totally open. All elements must be photographic; if graphic elements are included, they should enhance the photographic image but not take over from it. Any graphics used should be created by the photographer using his/her own artwork.

Please note the same or similar image may not be entered in Open Monochrome.

Monochrome images will not be allowed in this category

Digital manipulation is allowed in this category.

Category F: Open - Monochrome only – Manipulation is allowed

In this category the subject matter is totally open.

All elements must be photographic; if graphic elements are included they should enhance the photographic image but not take over from it. All graphics used should be created by the photographer using his/her own artwork.

Please note the same or similar image may not be entered in Open Colour.

Colour images will not be allowed in this category

Digital manipulation is allowed in this category.

CONDITIONS OF ENTRY:

1. An image may only be used once in a particular salon, panel or competition, irrespective of the category, or of the image being in colour or monochrome. No similar images may be used. The same image may be entered in other salons or competitions where it was not previously accepted.
2. Each image must have a unique name and the name of an image may not be changed at any time. Words such as "Untitled" and "No Title" are not acceptable, nor are titles consisting of only camera capture filenames or titles consisting of only numbers. Sanctions for "re-titling" will be imposed where a previously accepted image or print has been given a different title and/or where a Colour version and a Monochrome version and/or a Print version and a Projected Digital Image version of the same image have been given different titles.
3. Entrants may submit up to 4 images in each salon category.
4. Images that were accepted previously by any Edenvale salon may NOT be entered again.
5. The adjudicators will reject an image which does not conform to the definition of the entered category.
6. All the parts of each submitted image have to be photographed by the author who must be in possession of the original unretouched 'capture' version(s) of the image and where applicable of all component parts of the image. The author must also hold the copyright to each submitted image and of all component parts of it. The Salon Director may request an entrant to supply him with proof of the authenticity of all the elements in the presented image(s). If the entrant cannot supply such proof, his/her entry in the salon will be disqualified.
7. Except for the restrictions on images described in the Nature, Photo Travel and Photojournalism definitions, images may be altered, either digitally or otherwise, by the entrant.
8. Manipulations are prohibited in the Nature, Photo Travel and Photojournalism or in the categories as specified in the category definitions. This means that no elements of the photograph may be cloned, added or erased.
9. No title, watermark or identification of the maker shall be visible anywhere on the image.
10. Entrants must store and preserve intact, with no alteration, the metadata, the RAW file(s) or the original unretouched JPEG file(s) of the submitted images (and those taken immediately before and after the submitted image(s)) for possible future motivated inspection, with no expiry, prescription or limitation of PSSA actions. It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations. It is absolutely forbidden for any entrant to tamper with the EXIF or original data in the files submitted to salons/exhibitions.
11. The entrant accepts without exception and with no objection the following terms:
 - that the submitted images can be investigated by PSSA to establish if these adhere to PSSA regulations and definitions even if the entrant is not a member of PSSA,
 - that PSSA will use any means at its disposal for this undertaking,
 - that any refusal to cooperate with PSSA or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, may result in disqualification
12. The exhibition assumes no liability for any misuse of copyright by the entrant.
13. No judge or family member may enter categories in which he or she is judging.
14. If a judge entered any section in which he/she acts as a judge, the images must be removed or disqualified.
15. The Exhibition Chairman may not serve as a judge for the exhibition. Any other person who, prior to or during the judging, is involved with processing the images or has access to the images may NOT serve as a judge for the exhibition.
16. **Images must be entered in the following format:**
 - JPEG file format
 - File size may not exceed 2 MB
 - Images must be resized to a maximum of 1920 pixels on the horizontal axis OR a maximum of 1080 pixels on the vertical axis
 - It is recommended that the image is converted to the sRGB colour profile to ensure correct colour rendition during display and adjudication.
 - Borders are optional, but within the size restraints as described.

17. An entrant's images will not be presented to the judges consecutively but distributed randomly in each category.
18. **DATA PROTECTION:**
By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organisers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organisations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.
19. **BREACH OF CONDITIONS OF ENTRY**
If the exhibition determines before, during, or after the judging that an entrant has submitted entries where one or more images fail to comply with these Conditions of Entry, including the stated definitions, the exhibition reserves the right and discretion to delete the entry from the exhibition and void any or all acceptances or awards. Fees will be forfeited in these circumstances.
In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition may carry out checks on the images to make sure that:
- the images are the original work of the entrant and
 - the images comply with the rules and definitions as set out in these Conditions of Entry.
- This may involve asking the entrant to provide originally captured image(s), with EXIF data intact, by a set deadline. The questioned image(s) of any entrant failing to comply with such a request for the original image(s) may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSSA for further investigation of possible ethics violations. PSSA retains the right to investigate in any way all complaints/suspensions of breaches of entry conditions, impose sanctions if deemed necessary, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP and PSA. Entrants automatically agree to these.
20. Submission of entries signifies acceptance of these conditions of entry.
