

Listing of Acceptances for Diamond Ratings, DPSSA and EPSSA

There are two ways in which this can be done.

1. List all acceptances on the Excel Spreadsheet to be found on the PSSA Website under Salons>Diamond Ratings.
 - Use a separate sheet for each category
 - Record the Image title and the salon at which it received acceptances with a maximum 3 per image (remember that it is a maximum of 3 per image across all 3 categories)
 - Highlight all international acceptances
 - Note all judging credits separately on the sheet listing each salon judged
 - If additional lines are required then insert lines into the spreadsheet
2. Use the list of acceptances from PhotoVault.
 - Download your list of all Salon entries from PVO which can be found here.
 -

- Sort the sheet on column M which will put all the Accepted images together.
- Then sort all Accepted images by Title – Column D
- If there are any that have more than 3 acceptances delete the ones in excess of 3 you don't want to use
- In columns after the Archived column note which are for Nature, Open and Mono respectively
- Then add up the total for each category or the category you are applying for. See example below.
- International acceptances to be recorded on the spreadsheet as above.

Send the spreadsheets (either from 1 or 2 above with your application.
