

HONOURS INFORMATION – 10 CREDITS

Credits are awarded to unsuccessful applicants for individual images or Audio Visual sequences that were passed by 75% or more of the judges.

The Credit System runs for a period of two years from the date of your first application. Credits will be awarded at each of four successive judging sessions.

The credits help to make up the necessary requirements for a panel to be successful and must be resubmitted with all applications made within two years of the date of the original application. Thereafter all the credits will become null and void. A credit may not be failed by a judge during the time of its validity.

Credits in a resubmitted panel need not be in the same order or position as in the previous panel.

There is no limit to the number of times one may apply, but credits are only valid for the two-year application period. While expired credits may be re-submitted in subsequent applications there is no guarantee that they will pass in the new application.

The two-year application period will only begin when credits are awarded. Credits will not be awarded if the required minimum is not achieved -

The required minimum number of credits is

LPSSA	Digital & Prints - 3 Credits	Audio Visual - 1 Credit
APSSA	Digital & Prints - 5 Credits	Audio Visual - 1 Credit
FPSSA	Digital & Prints - 8 Credits	Audio Visual - 2 Credits

The assessment and awarding of credits for the FPSSA is slightly different and full details may be found under the FPSSA tab below.
